

My name is Dr. Jeremy Busch, and I am a DACBSP that is running for the ACBSP Board of Directors position. To give you a quick breakdown of my experience, I graduated from National University of Health Sciences in 2006. I quickly started down my path in Sports Chiropractic by pursuing my CCSP almost immediately. I obtained my CCSP in 2007, and I spent the next ten years developing my experience in sports as well as volunteering my time in leadership for the Virginia Chiropractic Association. In 2017, I obtained my Diplomate status. Within my state organization, I started my involvement with gaining experience with committee work as an active member. From committee membership, I learned the key principles of organizational management from the ground level. In 2012, I was elected into leadership as the District 1 West District Director and Board Member. I held this position for two terms from 2012 till 2016. In addition to my Board Member and District Director position, I was nominated for the Chairman position for the Insurance Committee with the Virginia Chiropractic Association in 2013. I maintained this position from 2013 till 2018. In 2018, I felt it was my time to become more active in the national level. I appropriately trained my replacements and stepped down from both positions. I then decided to become an active individual within both the ACBSP as well as the ACA Sports Council. Now, I am asking for your votes as a position with the ACBSP Board of Directors.

I am very passionate about Sports Chiropractic and the necessity of us being sideline. I currently volunteer within my local community as the Warren County High School Team Sports Chiropractor as well as for numerous running groups. In addition to these volunteer positions, I have completed two USOC Sports Medicine Volunteer rotations at the Chula Vista Elite Athlete Training Center. I was also selected to be a Medical Services Polyclinic Sports Chiropractor in Rio 2016 Paralympic Games. Beyond the volunteer experience, I am currently the Lead Team Physician for Christendom College. Part of my duties here is to oversee the multidisciplinary team of ATC and CSCS as well as provide sideline duties. Finally, I started working as a credentialed Sports Chiropractor for the Player Performance Center for the PGA Tour in 2017. I provide the sports chiropractic services at the Champions Tour Ally Challenge in Michigan.

Overall, the bottom line is that I have been developing my knowledge and skillset to flourish in a position such as this. I am excited for the opportunity to assist an organization like the ACBSP achieve their goals as well as help support the general membership with what they need at the local level. I hope to gain your vote, and I look forward to seeing you either sideline or at a Symposium in the future.
