

We have watched and listened to the news over the last two years regarding the horrible abuse of young athletes in various sports and at universities.

SafeSport evolved out of the revelation of these disturbing situations, which involved abuse of young athletes by doctors and coaches whom they trusted. SafeSport is an investigative organization and will explore any case of reported abuse of young athletes. Ms. Katie Hanna, from SafeSport, was a presenter at the 2018 ACBSP™ Chiropractic Sports Sciences Symposium. Ms. Hanna provided a strong message about our role regarding the protection of our athletes and patients.

The ACBSP Board of Directors unanimously approved of a change to our annual CEU requirements for the CCSP® and DACBSP®. Beginning January 1, 2019, all ACBSP certificants will be required to have the SafeSport certification. The ACBSP will require this certification to be updated every two years. This certification can be obtained online with a minimal fee to SafeSport. SafeSport is considering creating a new certification for sports medicine practitioners, but until this occurs, please complete the existing online course.

Thank you for having the fortitude and integrity to stand with our young athletes and to provide a voice for them and another level of protection of their health and rights.
